PROFESSIONAL SUMMARY

Full Stack Developer experienced in React, Next.js, TypeScript, Node.js, Express.js and Python — building CRM products, REST APIs, real-time systems, and algorithmic-trading applications across feature development, system integration, and performance optimization.

PROFESSIONAL EXPERIENCE

Software Developer Intern — Mentorchamp EdTech Pvt. Ltd. (TG Levels) May 2026 – Aug 2026

- Built CRM dashboard & Leadership Hub (Next.js, TypeScript, Tailwind) with reusable components, analytics views, and interactive filtering; standardized shared date-filter/context logic and refined core UI workflows.
- Delivered full CRM analytics suite — Conversion & Engagement Funnels, Failure Flow, Hourly Funnel, Stage Velocity, Forecast Chart, Intelligence Panel — with date-range and historical-data filtering.
- Built Python MW/DW backtesting pipeline for market data: wave detection, R/E/F/F_CONT event analysis, excursion metrics, and heatmap-based strategy research, cross-validated against Pine/TradingView logic.
- Integrated validated MW/DW logic into a Node.js/Express/WebSocket trading app — fixing existing bugs, adding Driver Wave functionality, and optimizing on-demand chart data fetching for responsive performance.
- Converted equity & NIFTY options datasets into partitioned Parquet storage; audited data via row counts, date ranges, and checksums to build curated, gap-free market-data sets.

KEY PROJECTS

Capsule — Secure AI-Moderated Media Platform

Live: capsule.topiiaa.site | GitHub: github.com/Topiia/Capsule

Tech: Node.js, Express, MongoDB, Redis, React, JWT, Docker

- Built scalable Node.js/Express/MongoDB backend with JWT auth and Redis/Bull Queue async pipelines; exposed REST APIs to a React frontend, added Prometheus/Sentry monitoring, and deployed via Docker CI/CD.

Portfolio — AI-Powered Developer Portfolio

Live: topiiaa.site | GitHub: github.com/Topiia/personal-portfolio

Tech: Next.js, TypeScript, Tailwind, Groq SDK

- Built a data-driven, responsive portfolio with Next.js/TypeScript, integrating an AI chat assistant via Groq SDK, custom retrieval, and Cloudinary.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL

Frontend: React, Next.js, Tailwind CSS, Redux Toolkit, TanStack Query, Recharts

Backend: Node.js, Express.js, Django, FastAPI, REST APIs, JWT Auth

Databases & Real-Time: PostgreSQL, MongoDB, Redis, WebSockets, Socket.IO, Parquet

Tools: Git, GitHub, Docker, CI/CD, Vercel, Railway, Render

EDUCATION

B.E., Electronics & Telecommunication — Terna Engineering College, 2021–2025

CERTIFICATIONS

Kamal Classes, Thane (2023–2024): Python with Data Structures & Data Science (Dec 2023) · Django Web Framework & REST API (Jan 2024) · Machine Learning & Flask Deployment (Mar 2024) · Natural Language Processing (Apr 2024)
